

ANAS JAIDI

Web Developer

I'm a front-end web developer with a background in computer systems and

Algorithms and data-structure, networking. My 3 years of IT experience has given me a strong foundation for web development and building complex solutions. Recently, I joined 42 network for senior digital IT architect degree. I am passionate about coding and solving problems through code, and I am excited to work alongside other amazing programmers and learn so much more!

Employment History

Education

Digital IT architect at 1337, khouribga

NOVEMBER 2021 – NOVEMBER 2024

1337 is a coding school and a campus of 42 network:

IT architect at 42 Network, Paris

NOVEMBER 2021 – PRESENT

Rather than short training focused on a specific field or a coding language that will quickly become obsolete, 42 offers its students the tools to quietly tackle the technological changes they will face throughout their careers. In 42, students will "learn to learn", thus developing the ability to adapt and find concrete solutions to problems based on current knowledge and tools.

DUT at University ibn tofail, kenitra

SEPTEMBER 2020 – JULY 2021

general Economics

bacalaureat at Mohammed V, kenitra

general Economics
